Harvard Cherry	√	Havanna Cherry
Wisconsin Walnut	√	Albany Walnut

**Environmentally friendly, Lead free, Waterproof Construction Board (WPC)**

WPC is a 1,830mm (6ft) wide high density Waterproof Construction Board that is absolutely environment friendly and a non-polluting material. It is manufactured with New Zealand Pine Wood Sawdust and virgin thermoplastics. WPC board has features such as high resistance to extreme weather, moisture and termites. It is a low maintenance product that will not rot, crack or warp like many other timber products used for interior applications.

Uses of WPC boards in exteriors revolutionize the look and feel of outdoor space with extended life spans. WPC board is leading the way with its environmentally friendly, low maintenance range of thermoplastic composite decking boards.

WPC board is conserving our precious forest timbers and contribute positively to reducing global warming and habitat degradation. WPC board does not require painting, staining or oiling and it avoids using polluting preservatives.

The product can be cut, drilled, nailed and sanded like normal wood based products. All these processes can be done with standard and conventional carpenter tools. It can be easily processed with all board processing machines like Board saw, Beam saw, Vacuum press, CNC router, Edge benders, Multi boring and other machines.

**EASY TO CUT, SCREW / NAIL & SAW AS YOU DO WITH WOOD**  
**COMPLETELY CARPENTER FRIENDLY PRODUCT**

Thickness	Product	Finish	Sheet size available:	List Price / m2 excl VAT
3.6mm	WPC Panel	Supermatt Gloss	4,000mm(L) x 1,860mm (W)	78,00
6mm	WPC Panel	Supermatt Gloss		123,00
9mm	WPC Panel	Supermatt Gloss		204,48
12mm	WPC Panel	Supermatt Gloss		255,60
16mm	WPC Panel	Supermatt Gloss		340,00
18mm	WPC Panel	Supermatt Gloss		408,95
30mm	WPC Panel	Supermatt Gloss		673,07

For those special projects we can now offer: 162 Decors available in Melamine Faced Board and/or Laminate with 8 to 10-week lead-times.
