Dear Customers,

## RE: SURFACE INNOVATIONS & WOODCENTRE ANNOUNCEMENT

We are excited to announce that an agreement has been signed that will see Woodcentre Group's Deco Surfaces take over the Surface Innovations brand from PG Bison with immediate effect.

Surface Innovations has built a solid reputation as the largest supplier of high pressure laminates and solid surfacing in South Africa. With PG Bison's decision to exit Surface Innovations and focus on local manufacturing, it is fitting to be able to hand the Surface Innovations brand over to the Woodcentre Deco Surfaces team.

With the purchase of the Surface Innovations brand, Woodcentre has also purchased the Corian Solid Surfacing stock. They will supply this to the market in tandem with their own solid surface range. This will help ensure no projects currently using Corian designs are disrupted. PG Bison holds the remaining solid surface stock, not purchased by Woodcentre, and will focus on clearing this stock out to the market.

The process of transferring the stock to Woodcentre's Johannesburg and Cape Town branches has begun and we ask for your patience while the remaining logistics are resolved in the following two weeks.

**Please note, Woodcentre will not be taking over any Formica high pressure laminate flat sheet stock. The Formica brand remains the property of PG Bison and we will continue to trade with that brand name.**

For any further requirements in solid surfacing, please do not hesitate to contact the Woodcentre Group's Deco Surfaces:
