PFLEIDERER

HPL for doors

2013 – 2016 product range

Pfleiderer – the best of all worlds.

Pfleiderer unites three strong brands to create a new image with the greatest market penetration in the wood based panels sector. All the products, services and benefits currently offered by our specialists Duropal, wodego and Thermopal are now united in one company:

Duropal – the HPL and element specialist

wodego – the engineered wood partner with boards for all applications

Thermopal – the system partner for sophisticated interior design

You benefit from this new united strength with combined experience, increased know-how and simplified processes.

Pfleiderer – one brand, many benefits.

Pfleiderer is the number one partner for trade, industry, DIY, specifiers and architects – with an industry-leading range of products and individual services:

- Raw particleboard and fibreboard in different qualities and forms, decorative panels, laminates, compact HPL, HPL elements and worktops
- A new, industry-leading complete programme for core materials, decors and surfaces
- The unique DST system (design – surface – core technology)
- Special product ranges for doors, fire protection, lightweight construction, shipbuilding and green building applications
- Individual services in supply chain and marketing

Together we can develop tailor-made solutions for your ideas.

Take advantage of Pfleiderer's combined strengths for your success!

HPL for doors

103 selected decor texture combinations in HPL quality to EN 438 are available from our door range at short notice ex stock. This HPL range lends every door its own unique character. Having the ability to colour match with the identical decor melamine faced MDF from the extensive Pfleiderer wood-based panels range ensures you have optimum design possibilities with the highest quality.

- Duropal-HPL in formats 2150 x 915 / 950 / 1050 / 1300 x 0.8 mm, 2350 x 1050 and 2350 x 1300 x 0.8 mm ex stock. HPL format 2800 x 2070 x 0.8 mm, certain decors available ex stock, balances are available via the dedicated production programme.
- Individual HPL lengths between 2050 and 5300 mm and other HPL thicknesses (including 2.0 mm) are possible on request.
- Door decors with the integrated hygiene protection microPLUS® can be supplied on request.
- Matching melamine faced decorative panels and HPL flat-bonded elements are available in the DST system, the Pfleiderer decor and surface texture combination.

You can have a clear conscience when you work with us.

The creation of a future that is worth living is only possible with a philosophy and actions geared towards sustainability. We at Pfeleiderer do everything in our power to ensure that this is the case, paying attention to the unconditional sustainability of all the company's activities. Economic, eco-friendly and social – at all levels: Our products are manufactured not only with the greatest care, but also within the framework of a certified environmental management system. And we honour our special responsibility not only as a producer, but also as an employer. That is why a culture of trust based on self-responsibility is practised in our company. Sustainability from which you benefit – through eco-friendly products, committed employees and maximum satisfaction.

Any questions? We look forward to hearing from you.

Your satisfaction is our ultimate goal. But we go beyond this: Our goal is to surpass your expectations. That is why our partners can expect the highest standards in all areas of our operations. Do you have a specific project or just a simple question? Whichever way: We look forward to new challenges – and to your call.
